Specific Issues

Issue Description	Current Status (Open, Closed, I/P)	Disposition (Planned, Deferred, I/P)	Remediation Timeline	Available Workarounds	Comments
WCAG 2.1 (1.4.5 Images of Text)	Open	Deferred		N/A	This may not be an issue. We have millions of records spanning decades. Practices have not remained consistent. We first need to identify if this problem indeed exists before a resolution can be enacted.
WCAG 2.1 (**1.4.13 Content on Hover or Focus**)	Open	Planned	Q3 2023		Tooltips are not obstructed by the mouse, nor do they obstruct any button or link text they may be attached to. However, they are not presently dismissible.
WCAG 2.1 (**3.1.2 Language of Parts**)	Open	Planned	Q1 2024		Identification of foreign language documents or document fragments will need to be undertaken. Otherwise, language of the document is present on the root element of every page.
508 (302.1 Without Vision)	Open	Deferred		N/A	Further testing required. We believe this may be an issue, but our testing has not identified the issue at the moment. Nor have our users reported any issues.

Issue Description	Current Status (Open, Closed, I/P)	Disposition (Planned, Deferred, I/P)	Remediation Timeline	Available Workarounds	Comments
508 (302.2 With Limited Vision)	Open	Deferred		N/A	Further testing required. We believe this may be an issue, but our testing has not identified the issue at the moment. Nor have our users reported any issues.
508 (302.9 With Limited Language, Cognitive, and Learning Abilities)	Open	Deferred		N/A	Our interface provides no blinking objects nor fields that require timed responses from the user. However, due to the domain we operate within some of our content may present material that is complex.
508 (502.3.3 Row, Column, and Headers)	Open	Deferred			All application tables are provided with proper rows, columns, and headers. Exceptions may occur where original publishers did not include information in their works.
